

Point-of-Sale System Cleaning Supplies

Keep your investment in top working order

Prevent Problems before they occur

Extend the life of your POS system for pennies a day

Remember a clean Point-of-Sale System is a happy Point-of-Sale System (and a happier you too)!

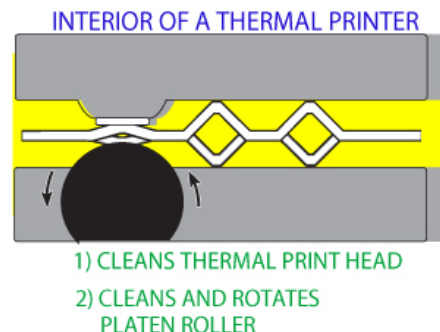

Magnetic Card Reader Cleaning -

This solvent treated cleaning card has a unique textured surface that cleans the magnetic contact reader better than cloth, or paper. Use regularly to reduce errors in credit card processing caused by faulty card reading.

Thermal Printer Cleaning -

This specially designed solvent treated cleaning pad used a unique textured design to clean the print head and the platen rollers, as well as the media pathways.

Your investment in your Point-of-Sale System is significant and you have the right to expect it to give you years of reliable service. We have built all of our POS systems from the highest quality parts and cover all our hardware with a 3 year warranty. However if your POS component parts are abused and not properly maintained the warranty may be voided. .

This collection of specially designed cleaning products, specifically for POS systems, are easy to use and when applied on a regular basis will both solve and prevent equipment malfunctions and extend the life of your POS equipment..

Two part Touch Screen Cleaning -

These special cleaning wipes are designed to be used in tandem to keep your POS touch screen clean and free of contaminants. Leaves screen streak free, improving functionality.

Keyboard Cleaning -

These cleaning swabs are designed to clean keyboard surfaces, including removing debris in between and around keys .
